Free checking, competitive rates,
auto and home loans...
they're all pretty standard.

**So how about something
that's not so standard?**

Personal service, courtesy, promptness,
a real voice at the end of the phone. At
Fidelity Federal we work hard every day
to remember that people, not profits,
continue to build our success.

215 North Lakeside J. BARRY LEWIS HOUSE

Originally built in 1939, this Florida cottage has 1,600 square feet. It was built by Francis Lane, a relative of one of Lake Worth's mayors.

It has two bedrooms and one and a half baths. One bathroom has been completely renovated.

The living room Florida Pine ceiling is a unique design for the year it was built.

A Florida room/study with three sets of French doors opens up to a front filed lanai.

Currently the kitchen is under construction, but a back screened porch was recently added with a slate floor and gabled roof. Screening was installed open to the room to the outdoors.

Barry has an extensive art collection of original pieces and a passion for mission furniture which is featured located throughout the home.

Brian Gleason, our local landscape artist, designed the lush landscaping.
